TESTIMONIALS

"I wasn't sure at first if digital dictation was right for me. I am not great with technology and was stuck into common ways of using my own secretaries. However, after working with BACK Transcribing my views changed immediately. I couldn't ask for a better service and have saved huge amounts of time and money."

"From the moment that I spoke to BACK Transcribing I knew they were right for me. My costs have fallen dramatically and the turnaround time is amazing. I was a bit worried that the accuracy would not be very good but my initial feelings were completely wrong. In fact I think my transcriptions are more accurate than ever. I only wish I knew about BACK transcribing earlier. Thank you from all of us".

A point to Consider – People can talk 7 times quicker than they can write or type.

Therefore it is more efficient if you dictate rather than type and with BACK Transcribing solution you could save a great deal of money.
